PRO HYBRID

The Next Hybrid To Dominate Tour

Ship Date: March 14

PRO A tour-designed hybrid with preferred shaping, ball flight and forgiveness that will appeal to players of all skill levels. This single design incorporates the attributes of many models that have been played on Tour for years—making this the go-to hybrid for Tour pros and recreational players.

Improved Ball Speed And Launch

Cut-Thru Slot™ combined with crown slot produces exceptional ball speeds and higher launch compared to non-slotted hybrids and traditional long irons.

Exceptional Shot Shaping

Repositioned center of gravity (CG) behind the center of the face enhances workability.

More Forgiveness

High MOI, upside-down head shape creates a more consistent contact area across the face.
